

PART 2 – ADVANCED INTELLIGENCE & PREMIUM ENHANCEMENTS

16. Smart Plan Adjustment Engine

Weekly automated evaluation.

Adjustment Triggers

Weight loss < 0.3 kg/week: Slightly increase deficit

Weight loss > 1 kg/week: Reduce deficit (safety)

Muscle gain stagnant: Increase volume

Low adherence: Simplify plan

Closed-Loop Flow

Plan → Execute → Track → Analyze → Adjust → Repeat

17. Unified Adaptive Dashboard

Displays:

Active goal

Today's workout

Diet adherence

Workout adherence

Habit score

Energy status

Goal forecast date

Measurement trends

AI coaching suggestion

Adjustment summary

Centralized control panel.

18. Extended Analytics

Advanced breakdown:

Multi-week habit trends

Progress velocity analysis

Workout volume progression graph

Diet macro accuracy tracking

19. Multi-Week Roadmap Preview

Preview 4–8 week progression plan.

Includes:

Planned intensity increase

Diet adjustments timeline

Projected milestone markers

20. Enhanced Reporting

Monthly fitness report:

Weight change
Measurement change
Habit score average
Workout adherence
Diet adherence
Goal progress %
Downloadable summary (future feature).

21. Premium Coaching Layer

Includes:

Advanced macro customization
Meal swap engine
Personalized meal adjustments
Extended AI chat responses
Deeper recovery insights
